-  -No measurements taken
-  -Lacking a valid value for comparison
-  - Diff. Pre- to Post- Weir falls within $\pm 1.5x$ Pre-Weir Standard Deviation
-  - Abs.Average Change Increase = 3.5 - 6.9 - corresponds to 1.5x - 3.0x Pre-Weir Standard Deviation
-  - Abs.Average Change Increase = 6.9 - 11.5 - corresponds to 3.0x - 5.0x Pre-Weir Standard Deviation
-  - Abs.Average Change Increase > 11.5 - corresponds to > 5.0x Pre-Weir Standard Deviation
-  - Abs.Average Change Decrease = 3.5 - 6.9 - corresponds to 1.5x - 3.0x Pre-Weir Standard Deviation
-  - Abs.Average Change Decrease = 6.9 - 11.5 - corresponds to 3.0x - 5.0x Pre-Weir Standard Deviation
-  - Abs.Average Change Decrease > 11.5 - corresponds to > 5.0x Pre-Weir Standard Deviation
